

Koch Chemie Mp Motorplast - Special Engine Conserver - 5L

236005

Naturally shiny, water-displacing conserver for engines, housing parts, rubber hoses and power units of cars, commercial vehicles, etc., with pleasant fragrance. Treated parts regain their new appearance. The complete drying (no lubricating film) prevents dirt sticking. The power units are protected from corrosion and environmental factors by the permanently elastic protective film. Suitable for use on dry and wet surfaces. Temperature-resistant to 250°C. With Daimler approval.

Areas of Use

Engines, housing parts, rubber hoses and power units of cars, commercial vehicles, etc.

Recommendations of Use

Use a spray bottle, or ideally the Cyclone, to apply an even thin film to the precleaned wet or dry surfaces and then leave to dry.

Warnings

Before using, check suitability and compatibility. Do not use on surfaces where slipperiness is undesirable.
