The Rag Company proudly partnered with Commercial Car Wash Owner/Operators across the USA to design and develop the ultimate microfibre Car Wash Towel – and here's the fantastic result! We challenge you to find a better one for quality, features and price. You just can't beat the everyday value and durability that this towel will deliver to your business (or your projects of passion)!

### Additional Product Details

- Premium commercial car wash microfibre (aka microfiber) towels specially designed by car wash owner/operators for commercial car washes, auto / RV / marine dealerships and enthusiasts alike
- Larger size @ 41cm x 69cm (16" x 27") = faster, more effective drying with a single thirsty towel = less labour needed per car and fewer towels used each day = lower overall costs
- More durable weight @ 320gsm vs lower 300gsm offered by majority of our competitors = longer commercial use and better performance from every towel
- Overlock stitched edge and slightly rounded corners for a continuous single border edge joint. Most competitor towels with joints at each corner = 4x risk of border failure
- Extremely competitive pricing: we challenge you to find a better quality, better value commercial car wash towel anywhere for similar size and weight...we couldn't!
- Greater return on your investment (ROI) than any competitor's car wash towels = absolute best value in a commercial car wash towel for price, quality and durability
- The largest colour selection for all your colour-coding options. Example: blue for windows and mirrors; yellow for exterior body and paint; black for wheels, tires and door jambs; lime green for chrome; and orange or red for interior use

- Excellent value choice for auto / marine / RV / cycle washing, detailing or polish removal
- Premier all-purpose lint-free, streak-free, scratch-free, tag-free terry towel choice of car washes and auto dealerships everywhere for drying, scrubbing, wiping, dusting, buffing... Everything!
- All purpose: use damp for general cleaning, wet for scrubbing heavily soiled areas and dry for dusting
- Also an effective all-around premium cleaning towel with thousands of uses around the house, office, car, or wherever dust and dirt need to be eliminated

**Tips** - The best way to care for your microfibre towels
