

Koch Chemie Lack Polish Blau P2.01 1L

P201001

Lack-Polish blau maintains and refines new to medium weathered gloss paintwork. Lack-Polish blau creates an optimum streak free mirror finish both mechanically and manually. The treated surfaces are protected over a long period. Depending on the degree of weathering of the paintwork, various pad hardness support the cleaning process and in this way optimise the cleaning performance. Lack-Polish blau is ideally suited for all types of paint. With Daimler Approval.

Areas of Use

Paintwork of cars, commercial vehicles, motor cycles etc.

Recommendations of Use

Apply the polish with a medium or soft polishing pad and polish off almost completely when using a rotary or dual action polisher. Also suitable for manual treatment with a soft applicator. Use our Profi microfibre cloth to buff polish residues to a mirror finish.

Warnings

Shake well before using. Protect against frost and excessive heat. Do not use on hot surfaces. Before using check suitability and compatibility.
